

MERRY CHRISTMAS

2021 or the second year of Covid

Dear friends,

We so far stayed healthy, no colds, no covid and no other substantial ailments, we seem to be slowing down.

We still enjoy our place in Fallon and after we both got our second vaccination at the end of May, we traveled a bit in the West (car trips, no air travel).

In June we drove to San Diego, stayed at the Hilton Convention Center for a few days. What a change from convention Hotel to dog friendly family resort. From there we moved to Torrey Pines, not knowing that it was the US Open date. The pool was great, everybody but us was at the golf course or bar and restaurant, both overwhelmed. We enjoyed dinner with friends at a restaurant close by.

In July we met with Ben and Ruth on Tahoe's north shore. Ruth had booked a lovely Airbnb one block from the beach and we had a great time just strolling on the beach, talking and enjoying each other's company.

In August we spend a few days in the eastern Sierras hiking in the mornings, enjoying the pool in the afternoons and dining out at night.

In September we drove to Idaho hiking in the morning and swimming in the lake in the afternoon. We liked it so much, we already booked for 2022.

In October we drove to the Bay Area to visit Ben and Ruth, and went to a live business meeting in Santa Cruz.

And for Thanksgiving we drove back to the Bay Area to spend the holiday with Ben and Ruth and her family. We visited with friends and it was great.

We try to stay in touch with family and friends via video and phone calls. We love the few personal meetings and hope to see you all in the New Year.

Our wish for all:

Merry Christmas and Happy New Year! Be well, and healthy,

Jutta & Diether
